

Ultrasound images so clear, you might even see a family resemblance.

Philips HDI I
ultrasound system

Good news for our patients! Augusta Health Care for Women has a new state-of-the-art ultrasound system from Philips. The HDI I system contains advanced, high definition imaging technologies and an innovative design that fosters easier, more efficient exams. You'll appreciate seeing and understanding the amazingly clear images, including breathtaking 4D images.

To learn more about how we're improving patient care, call 540-213-7750 or 540-942-7750 or visit www.ahcfw.com.

“And my exam was easy—the new Philips ultrasound system was amazing.”
